DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/24/2008 has been entered.

Allowable Subject Matter

2. Claims 1-16, 18-19, and 21-22 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 1 and 21 recite a crane comprising the unique feature of a track control system for optimized movement and guidance of the load comprising an optimized control function based on the optimization of control parameters which include a plurality of predetermined position and orientation set points from the initial starting point to an end point and feedback from at least one status variable, wherein said control function dynamically calculates time functions for control voltages for moving the load with minimized oscillation amplitudes. This limitation, in combination with the other limitations in the claims, were not found in the relevant prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
